About ReguFlow Strategic Solutions

Consultancy Company

350 Employees

Headquartered in Singapore

Financial Services Clients
APAC, EU, USA

Manual Regulatory Data Entry

Revenue: USD \$50 Million

The Need for Transformation

Consultancy Trap

- Trapped in labor-heavy operating model
- Growth requires proportional headcount, capping margins

Breaking The Consultancy Trap

1. Extract & Shift

Shift from high-cost manual analysis to automated rule extraction.

3. High Margin Scale

Achieve 85% Target Margins and secure recurring SaaS revenue.

2. Precision Information Gateway

Package compliance data into a robust subscription platform

From Service Delivery to Platform Economics

Current Business

Unique Selling Proposition

Reliability, accuracy, and peace of mind through human expertise

Value to Customers

Ensuring compliance obligations are met, avoiding financial penalties and reputational damage

Revenue & Growth Strategy

Labor-intensive consultancy that scales strictly through headcount

Transformed Business

Speed, precision, and cost efficiency driven by automated processing

Repeatable digital capability that performs complex expert information processing in seconds

Digital platform business enabling future expansion into other sectors

The Workforce Evolution

Before: Manual Bottleneck

- 70% Manual Data Entry (Junior Staff)
- 30% Error Checking (Managers)
- Slow turnaround & high burnout

After: Platform-Augmented

- Employees upskilled to “System Overseers”
- Focus shifts to managing Technology
- Number of employees remains the same

Before Transformation

LABOR-BAVY CONSULTANCY MODEL

CURRENT C-SUITE & LEADERSHIP (4 Executives)

After Transformation

HIGH-MARGIN PLATFORM MODEL

FUTURE C-SUITE & LEADERSHIP (6 Executives)

Checkpoint

From Manual Effort to Automated Outcomes

Before

- Manual service
- Selling data entry by human labor

After

- SaaS platform
- Selling high-margin subscriptions to an automated engine

Target Audience

Transformation Benefits All Stakeholders

Clients

Regulatory certainty
without delays or fines.

Compliance in hours

**100% Fidelity
Guarantee**

Employees

Meaningful work and
rapid career growth.

Tech-Enabled Overseers

**10x Productivity
Boost**

Investors

Scalable growth without
proportional cost.

Infinite revenue scale

85% Target Margin

How We Reach Customers

01 · MARKET ENTRY Cloud Partnerships

Embed in MS/IBM platforms.
Banks find us via expert
authority - zero cold outreach.

"Ecosystem authority"

\$450K

subscription vs.
\$1.5M manual

02 · SALES APPROACH Proof-of-Velocity

We don't pitch features; we
prove speed. Delivering
compliance-ready documents
in hours.

"Sell operational velocity"

48h

delivery vs.
6-month competitors

03 · REVENUE MODEL Subscription Lock-In

Manual migration is too costly.
One-off projects naturally
convert to multi-year SaaS
contracts.

"Platform-based digital revenue"

85%

target margin
on digital contracts

From Effort-based Revenue to Outcome-based ARR

Before

- Linear economics
- Revenue growth capped by labor-dependent unit costs
- 30% operating margin

After

- Platform economics
- Subscription-based model allows significant scaling, decoupling revenue from headcount
- 85% target margin

Current vs. Future Financials

Not a publicly listed company

Current Business Model (Manual Service)	
Metric	Est. Value
Annual ReguFlow Service Revenue	\$50,000,000
Cost of Delivery (COGS)	\$25,000,000
Operating Expenses (OpEx)	\$10,000,000
Operating Profit	\$15,000,000
Operating Margin	30%

All amounts in USD

Could become a publicly listed company

Future Business Model (Digital Platform)	
Metric	Est. Value
Precision Information Gateway ARR	\$250,000,000
Cost of Delivery (Cloud & Compute)	\$15,000,000
Operating Expenses (OpEx)	\$22,500,000
Operating Profit	\$212,500,000
Operating Margin	85%

All amounts in USD

Proving the New Business Model

Real RFP Challenge: APEC Mandate

Social Impact Bonus: Lower computational **Energy** means superior sustainability **Performance**.

Change Management

Change Management Prerequisites

1. The presence of sufficient pressure to justify change (regulatory complexity and market competition)
2. A clear and shared vision (platform-based solution)
3. The capability to execute the transformation (technology, skills, governance)
4. A feasible first step (validated through initial RFP success)

ReguFlow is currently in the **Exploration** phase

- The company has identified the Consultancy Trap as a clear reason for change
- The company is building the Precision Information Gateway to capture future opportunities, as proven by the 2026 APEC RFP success.
- The transformed company will function under “Mode Two” of the Bimodal Operations Approach.

Risks & The Path Forward

Key Transformation Risks:

Regulatory

Continuous legal changes require constant updates to frameworks.

Accuracy

Algorithmic outputs must remain 100% reliable for banking use.

Organizational

Transitioning legacy staff successfully to the automated paradigm.

Strategic Growth Path

Vision: Become the global standard for automated expert information.
